Experimental search—Concept Mapping

Visit [YourEvidence](#), enter search term and click

Search Concept Map

- A visual representation of that and related subjects will appear.
- Click a subject to either explore it further or add to search string.
- Papers matching your selected search terms will appear on the right of the page

The Evidence Team can still be contacted via email and are still more than happy to carry out evidence reviews to help with your clinical or corporate change program

Any books that you have on loan from us are now due back early 2021
